

## JANA & KOOS

Award-winning conceptual design and art direction duo, Jana Hamman and Koos Groenewald have been working together as a creative team for over 10 years. After cutting their teeth in ad agencies, they started their own eponymous company specialising in building new brands, conceptualising immersive experiences and working across disciplines merging art, design, curation and creation, all with a strong emphasis on collaboration. Jana and Koos have built a name for themselves together based on each of their distinct personalities and their ongoing side and personal projects which include things like designing clothing ranges, hosting inner city music/art mashup parties, illustration and art exhibitions and styling music videos. They have worked with some of the most interesting and forward-thinking brands like Nike, Simon + Mary and the British Council on projects ranging from a Cape Town boutique hotel to Johannesburg's new art precinct, numerous local fashion brands and exhibitions in New York.

Lampost, Parkwood, Johannesburg, South Africa.
